

THE WAIT IS OVER!!!

Word-Wires is proud to announce the launch of

Word-Wires Readers

Dot Meets Dee-Dee

Jennifer Bloch Garcia & Laura Rogan
Illustrated by Ardelle Ning

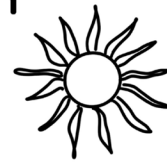

SET 1 | BOOK 2

Phonetically controlled stories follow our unique, linguistic based phonetic scope and sequence which is informed by the science of reading. Our goal is to provide young readers with books they can enjoy while developing their skills at reading phonetic words and high frequency sight words.

We designed the books to track with the structured, explicit phonetic scope and sequence of the IMSLEC accredited Wired for Reading program and the Word-Wires classroom program, though they can be used in conjunction with any Orton-Gillingham based program. Teachers can determine entry points using Wired for Reading and Word-Wires benchmark assessments.

Testimonials from First Graders:

"Can we just read Tom Meets Dee-Dee?" a first grade student.

"These are much better than other books I usually have to read," a first grade student.

Tom said, "Let's dress
Boo up as a sheep."

Dot said, "Yes! He *will*
want to be a sheep."

Testimonials from First Graders:

"I would give Meet Sid five stars," M.B.

"I love Sid's personality," R.W. "I would
also give it six out of five stars."

"My daughter insists on reading these
books twice a night," Mom of first
grade student.

"The Pooch Shop is a 54 out of 50,"
J.S.

All readers are recursive; the concepts build on and add to prior concepts.
The **bolded** part of a sight word is the phonetically unfair aspect.

First three sets of virtual books and downloadable foldable books which includes
2 years access and permission for unlimited number of downloadable books to
use with current students. **\$40**
